Published by the TRANSLATOR SCAMMERS INTELLIGENCE GROUP

Version: April 28, 2018

Scammers are sending the following email to translators:

Hi There,

According to your wish I am writing this email and what I sent before..

I accepted to work with you even it was the first time to work with you, and I did not take any deposit because I trusted you.

Now I am asking to send my money and you refused.

I tries too many times to contact you but you do not respond.

So you have only 24 hours to respond my email. And if not I will do this;

YOU have to be very careful when you are dealing with me!! If not, you have to be ready for what I will do to get my money back!!! Which is;

1) I will share all the documents between us know proz, Translaor cafe and Translation diroctory.

2) I will prepare a really huge scandal for you, and tell every translator or translation company to deal with you.

3) I will share every single document or email on social media, Facebook, Twitter, Instgram, Skype, Snapchat and every place you can imagine.

4) I will provide every translator and translation company and tell them that you do not pay and you tell stupid answers and more stupid evidence.

5) I will write a report of you telling the entire translation community of your fraud.

6) I will make my Hacker friends to hack your site and your company and destroy it completely.

This is nothing from what I will do!!!

You will lose everything not only money but your name and you entire business.

It is easier to pay, specially you are a small company which wants to be a successful and bigger in translation community!!

PAY FOR ME AND YOU WILL SAVE YOUR NAME AND YOUR BUSINESS! !!!

If you pay for me on my PayPal account I will vote for you excellent in paying on proz.com! !

I want my money back!!!!

and really you have to be careful because I can destroy your company and even your personal life!!!

SO you must pay me full payment NOW,NOW,NOW

Thanks for understanding
