

OUR FIGHT AGAINST THE CV SCAMMERS

Scammers live online, operate online, and try to hide online. Our mission is to expose their operation and hiding places and to make their lives a living hell. Yes, the CV scam is real, and our rule is simple: whatever scammers make public, we published it online for everyone to see!

1. LET THE NUMBERS SPEAK. Compared to 2020, we've registered in 2021:

Will we ever see the end of the Palestine and Gaza-based CV THEFT SCAM PLAGUE?

NOTE: NOT all emails listed in our website are related to CV THEFT SCAMS. In 2021, we have CONTINUED to witness an increase of emails related to other scams targeting translators (usually originated from Africa countries), like the impersonation of translation companies and several financial scams (mainly of the overpayment type). We DO NOT list these scammers individually, but we do collect and list their email addresses. This also explains the increase of emails listed in our website.

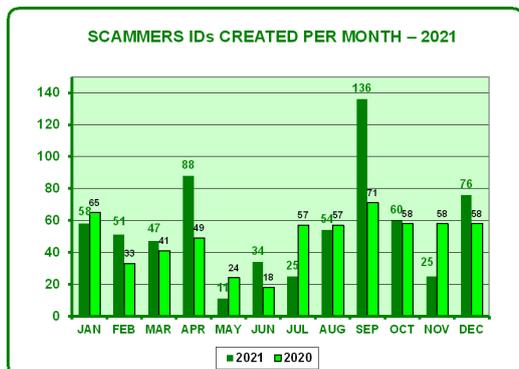

After NEW SCAMMERS' IDS (NAME + EMAIL) going down consistently since 2014 until 2018, with a slight deceleration in trend in 2018, we have seen a steady increase in the creation of NEW SCAMMERS' IDS in 2020 and again in 2021 (10% in both years).

NOTE: approximately 98% of the fake CVs circulated in 2021 were just recycled, i.e., resent either from known names and emails or from NEWLY CREATED EMAILS.

Relentlessly exposed in our website since 2014 and many other online sources, scammers keep creating NEW SCAMMERS' IDS in the hope that "this one will go through".

But, no matter how big these numbers seem to be and the nuisance inflicted on the Translation Community, the cold hard fact is that the CV scam is becoming less and less profitable to scammers: to our knowledge, NO SCAMMER GOT PAID IN 2021 (see item 9. below).

Since 2018, we also analyze the monthly distribution of FAKE CVs created throughout the year. In 2021, 7 months have shown more IDs created than in the same months of 2020. This was due to the desperate efforts by scammers to create new IDs ("this one will go through").

Burned everywhere and with their names and emails systematically exposed on our website and many other online platforms, scammers can only resort to keep creating new fake identities and CVs. Only to be busted and exposed again.

2. WHAT ABOUT THE INCREASE IN NEW SCAMMERS IDs FROM 2019 TO 2021? This increase is due to these main reasons:

- 2.1 Exposed everywhere since 2014, Palestinian scammers kept on creating new IDs. While we cannot measure how many of these resulted from CVs voluntarily sent by gullible translators to scammers in response to their infamous "Authorization and Agreement" pitches, their number **MAY NOT BE negligible**;
- 2.2 Several giveaways left by the scammers in their emails and other documents (see 4. below), lead us to believe that new operators, mainly from Gaza (Palestine), have joined the scamming "business". However, luckily for us all, most of these operators keep showing ridiculously low skills in their craft, and;
- 2.3 More translators and companies have joined the fight against scammers, leading to more scammers being exposed.

3. WHAT WERE THE CV SCAMMERS UP TO IN 2021? In one word, more of the same. But with some new twists:

- 3.1 Creating new emails for their fantasy or stolen identities, in the hope that "this one will go through";
- 3.2 Using the same genuine CVs to create several other fake CVs (sometimes the same CV has been used to create 5, 8, 12 different fake CVs).

4. ABOUT THE GEOGRAPHIC ORIGIN OF THE CV SCAM. Most of the CV scammers are still located in Arab countries (namely Palestine and Gaza, about 99%) or other Eastern Europe and Asian countries (namely, India, Bangladesh or China). Recently, most of the emails from Palestinian scammers began showing interesting telltales in their headers:

```

Of course, the **IP addresses shown on the email headers belong to Palestine/Gaza ISPs**, and the analysis of these telltales confirmed what we already knew: the CV scam is not some playful operation carried out by some small group of Palestinians willing to make a fast buck. Rather, it is a vast and well networked operation, as we can see the very same fake CVs (maybe kept in a shared pool), some already being circulated for years, being sent from different computers with various Palestinian/Gaza IP addresses. Ridiculously, some real (and blind) translators still believe that Gaza scammers are just "scapegoats" of any unnamed scammers and, even when faced with proof of their geographic location in Whois data for their scamming websites, they still claim that "these data can be faked"!

So far, more than 3000 emails sent by Gaza scammers show these telltales: 1263 from confirmed Gaza sources (tagged "Gaza") and 1737 showing the IDs and IPs of their computers (tagged "77*" on the PDF Directory). From one computer alone – ALNajjar-PC, tagged "771" – more than 716 fake CVs have been sent to prospective victims. These numbers keep growing by the day.

5. **WARNING JOB POSTERS.** We continued warning translation jobs posters about the high probability of their offers being also answered by scammers with fake CVs. **We REITERATE that the inclusion of advisories in the translation job posts pages warning about this risk and the need for a careful vetting of all applicants would be a great service to all in the Translation Community.**
6. **CV SCAMMERS PROFILES IN TRANSLATORS' PORTALS.** Scammers see (and use) translator portals as a fast and cheap way to get some sort of online footprint and "professional credibility", and, yet, shamefully and with almost total impunity, scammers do keep profiles in Translators Portals. TranslationDirectory continues being very slow in deleting scammers' profiles from their lists. **In our Translator Scammers Directory (PDF edition) (downloaded 4258 / 9786 times in 2020), we now have a section listing 213 profiles (177 in 2020) kept by scammers in Translators Portals.**
7. **DATABASE OF FAKE CVs.** The Database of Fake CVs (yes, the fake CVs themselves) now has **5334 files (4653 in 2020)**. More fake CVs are constantly being added as they are processed or become available. Also, please read the information about accessing the database **very carefully**.
8. **WHERE SCAMMERS LIVE.** The **Directory of FAKE OR STOLEN addresses, phone numbers, VAT numbers and other ID data shown on the scammers' CVs** continues to grow. It now contains **3842 entries (3655 in 2020)** and is one more useful tool in the fight against translator scammers.
9. **A SCAMMER EXPOSED IS A SCAMMER BUSTED:** more than exposing scammers by the thousands, our work can be seen as more effective when scammers are denied working as false translators or simply busted, when they were already believing to be home free and waiting for their money. Below, is a summary of such successful busts **registered in 2021**, without any payment to scammers being reported (which doesn't mean that they didn't occur in other instances):

Scammer's name	Scammer's email	PayPal ID used by scammer	Country where busted	Scam outcome	Remarks
Adrina Benito	adrina.translator251@gmail.com adrinawork123@gmail.com	energy.45@outlook.com	UK	NOT PAID	n/a

Note: scammer still waiting for USD 2,969.28!

Elsa Mdrón	mdronelsa1@gmail.com	serv.translations2@gmail.com	PT	NOT PAID	Delivered a Google translation document and sent us a false invoice, using someone else tax ID and address.
Fauve Desmarais	fauve.desmarais@gmail.com	pay.payment19@gmail.com	UK	NOT PAID	Failed to provide positive ID at time of payment.

Tina Ruusunen	tinaruusunen@outlook.sa	one.translation@gmail.com	UK	NOT PAID	Asked for ID, "Tina" responded: I am a freelance translator and I will attach the CV. And too I do not know who put my name in these site.

10. WHY WAS TWITTER PROTECTING SCAMMERS? Read our TSD Bulletin 01/2019 about this issue. However, as from 17SEP2020, we were back on Twitter: [@scammersTSD](https://twitter.com/scammersTSD), AND, YES, WE WELCOME NEW FOLLOWERS. Reminder: our legacy account [@tsdirectory](https://twitter.com/tsdirectory), created 14MAR2014, had 3105 followers.

11. OTHER SCAMS TARGETING TRANSLATORS (ADVANCE PAYMENT, OVERPAYMENT AND OTHER FINANCIAL SCAMS). AND, WHY IS THIS TYPE OF SCAMS SO POPULAR AMONG TRANSLATORS AND GOING ON FOR SUCH A LONG TIME? Because, naive and unwary translators keep fueling these scams by happily responding to them. And, to those who have fallen to these scams, you don't have out sympathy. **STUPIDITY AND BLIND GREED HAS A PRICE, AND YOU, AND YOU ALONE, MADE IT HAPPEN.**

IN OUR DIRECTORY (ONLINE OR OFFLINE), WE DO NOT DEAL WITH FINANCIAL SCAMS, like advance payment/overpayment scams, Nigerian scams, pay-to-work, wallet lost abroad, employment abroad, dating and romance (where "lovers" are asked to pay for "translation services", so that they can communicate with their ravishing Russian or Ukrainian "ladies"), and data verification (phishing) scams. Whenever possible, we keep the names, emails and other data used by scammers, like addresses and phone numbers (always fake) in our Directory, so that their data show up in online searches. It is however worrying that many translators and companies still lack active knowledge about the scammers operation and accept jobs from, e.g., john.lord.thebigword.com@gmail.com!!! In all Translator Portals, we can see people coming forward publicly telling us how they've fallen victims to all sorts of scams, from stolen/fake CVs to overpayment and other financial scams. Where do these people live? In Wonderland? And what about the many others who never publicly share their losses to scammers?

Our work and this Report would not have been possible without the support and collaboration of the many independent translators and translation companies who tirelessly share with us data, emails, fake CVs and other documents circulated by scammers, and more are joining this fight every day. Without your dedication – you know who you are – scammers would have a much easier life. **A very special appreciation goes to all our very determined champions in 2021.**

How the CV Scam works – A reminder

It all starts when CVs from real and legitimate freelance translators are stolen from translation websites or provided by unwary and gullible translators to unscrupulous scammers posing as job providers and then modified with made-up names (sometimes, the victim's name is kept unchanged in the scammed CV) and emails controlled by the scammers. Remember, **the CV Scam is based on ONE thing, and ONE thing ONLY: an email address (or several email addresses) created and operated by scammers as their point of contact.** Forget about postal addresses, phone calls or video chats: scammers communicate by email only, and only in English. Asked by an Italian company why "she" didn't write in Italian, an "Elena Mazzotta" responded: *"I talk with all my clients with English language even if they are Italian, because of a lot of reasons such that to find my emails easily when I need to search about anything, to improve my English language and a lot of things that make my works easier"*. Or, "Carlito Tronci", when asked for a phone or Skype interview by a US company, replied: *"I have a speaking problems, my vocal cords damaged due to an old accident."*

Then, armed with their "impressive" CVs, claiming proficiency in English, French, Italian, Spanish, Turkish, Dutch and even "Narwiegion" (and always "capable" to translate in every direction), *"I am a full-time SL to TL professional translator"* and boasting a ridiculous list of degrees from 4 universities from 3 different continents in a span of 5 or 6 years, including language studies abroad of their own native language (!) and claiming to be/have been "language teachers" or being in business for 20 or 30 years, but with no online presence anywhere, these "multi-skilled" and "multi-language" heavily spam everybody in the translation world with 10, 15 or 20 messages a day, trying to lure unsuspecting clients with their shining "skills", or responding to online job posts. Of course, forget about asking scammers to remove your email address from their mailing lists.

As for their fees, scammers tend to use what they perceive as "market fees", to which they undercut 2 or 3 cents, i.e., just enough for some greedy, but careless and wide-eyed, companies believe they've found Treasury Island... Then, if a job lands on their computers, scammers will just deliver some Google-translated gibberish (*I suspect, he is not a native speaker of Danish and has no grip of Danish grammar, syntax, gender and idioms, and has no feel of subject/meanings* – editor's comments about the work provided by Danish "translator" "Lars Hansen"), or turn into "companies" or "independent PMs" to attract the cheapest operators they can find, which, in the end, are either not paid or just paid no more than miserable rates. Yes, the client-victim will never use them again, but damage has been already done.

And who are the scammers' victims? Scammers spare or respect no one: translators living in poor African countries and those living in wealthier European or North American cities, everyone is prey to their scamming madness, but particularly those with years of experience, to whom they snatch their credentials. And when busted, scammers ALWAYS initiate threats to defame their client-victims online: *"I will put you in the blacklist at all the sites"* or *"I want be paid, or I speak bad of you with thousand translators"* are just some lines from these criminals.

THE TRANSLATOR SCAMMERS INTELLIGENCE GROUP

*they steal your CV, your work, and your money
together, we'll make their lives a living hell*
