Mr. Eugen Predescu
Vaslui, Romania

We are deeply saddened to hear of your cousins

Giovanna Baggio
Mihai Tonescu
Pablo Cordoba
Victor Mitran, and possibly others,

falling ill, in your own words, with “tuberculosis - TB - caused by the bacterium Mycobacterium tuberculosis, which affected their lungs) and stayed hospitalized 6 months in Waverly Hills Sanatorium⁽¹⁾ - 1600 Clifton Rd, MailStop E-90, Atlanta, GA 30333, U.S.A.”

We have instructed a trusted physician to send you by Priority Mail 5 gallons of premium gasoline, which you and your cousins must pour into your asses (1 gallon each, for a better curing effect of your TB) and, then, set on fire.

⁽¹⁾ You'll be surprised to know that the Waverly Hills Sanatorium was closed in 1961 and that it was located in Louisville, Kentucky, not Atlanta, Georgia.

PS: We have already dedicated a long Note to your ridiculous scamming endeavors:
www.translator-scammers.com/translator-scammers-notes.htm#n19

Yours till niagara falls,

A handwritten signature in black ink, appearing to read "Shinohara" with a stylized flourish at the end.

One of us
